Proposed language for inclusion in Bill 23-17

This Bill is not intended to negatively affect, or keep farm animals, raptors or other animals that are common to farm operations in our community from participating in the cultural, historic and educational shows, exhibitions, performances, displays and sales at the Montgomery County Agricultural Fair and Damascus Community Fair. To achieve this goal, the animals that are commonly found on farms, or listed in the annual Fair Catalogs for the Montgomery County Agricultural Fair, or Damascus Community Fair, are exempt from the restrictions that are contained in Bill 23-17.
